Three Days in Bohuslän

Bohuslän's coastline, featuring islands, skerries, Sweden's only fjord, and its only marine national park, can be explored in just a few days.

DAY ONE Drive north from **Gothenburg** following the archipelago, passing the two largest islands, **Orust** and **Tjörn**. After an hour's drive you reach the charming settlement of **Lysekil**, on Sweden's only fjord, **Gullmaren**. In the afternoon, continue to nearby **Smögen**, one of the most scenic fishing villages on the coast, now a popular vacation spot.

DAY TWO Follow the main coastal road north toward the unusual Bronze Age rock carvings at **Tanum**, a UNESCO World Heritage site. Reach the hub of **Strömstad**, near Norway, in the evening and treat yourself to some pampering at its renowned spa, before dinner at **Rökeriet**, a traditional smokehouse in the harbor.

DAY THREE Take the morning ferry to the **Koster Islands** and explore the car-free north island, hiking among the purple heather, yellow gorse, and pink-tinged cliffs before cycling or canoeing around the south island. Return to **Strömstad** by ferry in the evening.

Essentials

GETTING THERE

The coastal region of Bohuslän lies between Gothenburg and the Norwegian border. Flights arrive at **Gothenburg-Landvetter international airport**, 13 miles (20 km) from downtown. There are good local **buses** and **car rental**.
