

synovial membrane 44, 46, 47, 61
 syphilis 299
 systems **14–17**, 24–5
 homeostasis 23
see also individual systems

T
 T-lymphocytes 192, 196
 tanning, skin pigmentation 187
 tapeworms 207
 tarsal bones 41, 44, 55
 taste 103, **113**, **114**
 tear glands 193
 tears 123
 teeth 212, 216
 abscesses 195
 chewing food 214, 216
 development 278
 milk teeth 272, 278
 in newborn baby 272
 temperature regulation 23, 181
 tendinitis 74
 tendons **72**, **74–5**
 tenosynovitis 74
 testes (testicles) 133, 252, 253
 cancer 295
 hormones 136, 137, 281
 hydrocele 295
 puberty 280, 281
 testosterone 133, 137, 252, 280, 281
 thalamus 86, 87, 90, 93, 113
 thermoregulation 23
 thinking **111**
 thoracic vertebrae 151
 thoughts **111**
 throat 172, 214–15, 217
 thrombocytes 148
 thrombosis 124, 156, 158
 thrush 207, 209
 thumb 45, 54
 thymine 30, 31, 287
 thymus gland 132, 192, 272
 thyroid cartilage 171
 thyroid gland 132, 137
 disorders 141
 hormones 134, 139
 thyroid-stimulating hormone (TSH) 134, 135
 thyrotropin-releasing hormone 134, 139
 thyroxine 141
 tibia 41, 47
 tinea infections 207
 tissues, types of **36–7**
 toes 55, 180, 186
 tongue 214
 hyoid bone 50
 sense of taste 114
 sneezing 171
 tonsils 192
 tooth see teeth
 toothache 195
 touch, sense of **115**, 179, **182–3**
 toxins 205, 222
 trachea 165
 anatomy 162, 163
 breathing 164, 169
 bronchoscopy 13
 coughing 171, 217
 epithelial cells 184
 inflammatory response 198–201

transcellular fluid 21
 transcription, DNA 32
 translation, DNA 32
 tricuspid valve, heart 151, 152
 triplets 266
 trypanosomes 206
 tumours 12, 140, 305
 see also cancer
 twins 266

U
 ulcers, peptic 234
 ulna 40, 44
 ultrasound scans 13
 ultraviolet (UV) light 187
 umbilical cord 264, 270, 271, 275
 unipolar neurons 82
 upper airway infections 172–3
 ureter 242, 243, 253
 urethra 242, 243, 255, 257
 urethritis, non-gonococcal 299
 urinary system 17, **240–9**
 anatomy **242–3**
 disorders **248–9**
 epithelium 184
 homeostasis 23
 kidneys **244–7**
 urinary tract infections 248
 urine 242, 247
 uterus 256, 257
 after birth 273
 birth 270–1
 blood circulation 274
 contractions 267–70
 endometriosis 296, 300
 fetal development 264–5
 fetal position 266
 fibroids 297
 hormones 135
 implantation of blastocyst 251
 menstrual cycle 283
 pregnancy disorders 302–3
 problems in labour 303
 prolapse 297
 uvula 214

V
 vaccines 208
 vacuoles, cells 26
 vagina 257, 264
 birth 270–1
 menopause 285
 prolapsed uterus 297
 sexual intercourse 260
 vulva 258
 valves: heart 150–2, 157
 veins 149
 vas deferens 252, 253, 255, 301
 vasodilation 201
 vasopressin 135
 veins 146, 149
 coronary veins 150
 in newborn baby 275
 oesophageal varices 237
 respiratory system 163
 thrombosis 158
 vena cava 151, 153, 221
 ventricles: brain 89, 91
 heart 150, 151, 152, 154

ventricular tachycardia 159
 vertebrae 18, 41, **50–1**
 disc prolapse 57
 intervertebral discs 46
 joints 44
 spinal cord 99, 100
 vertebral column 40
 vibrations, hearing 118
 villi: chorionic 263, 265
 digestion 219, 230, 231
 viruses **202–3**
 HIV **209**
 respiratory infections 172–3
 vision **120–3**
 ageing 285
 colour blindness 293
 development of 278–9
 disorders **129**
 optic nerve 103
 visual cortex 110, 122
 vitamins: digestive system 232
 storage in liver 220
 vitamin B group 224, 232
 vitamin K 224, 232
 vitiligo 188
 vitreous humour, eye 120
 vocal cords 162, 217
 puberty 280
 vocalization **171**
 voluntary muscles 67
 voluntary responses 109
 vulva 258

W
 walking 55
 waste products 21
 ageing 284, 285
 in blood 148
 digestive system 213
 urinary system 242, 247
 water: body fluids 21
 in colon 232
 drinking 23
 wax, in ears 116, 128
 white blood cells 148–9
 functions 172, 195
 inflammatory response **198–201**
 lymphatic system 192
 skin repair 180
 types 194
 white matter 36, 92–3, 98
 windpipe *see* trachea
 wisdom teeth 216, 278
 womb *see* uterus
 worms, parasitic 207
 wounds 83, 180, 198
 wrinkles, skin 284
 wrist: bones 40, **54**
 carpal tunnel syndrome 75
 fibrocartilage 46
 joints 44, 45

XYZ
 X-rays 12–13
 yeasts 207
 zygote 260
