

- Feta
- Ricotta and cottage cheese
- Mascarpone and cream cheese
- Mozzarella
- Processed cheese, such as spreads.

CALCIUM BOOST

The most easily absorbed source of calcium is in dairy products. If you can't or don't eat this make sure you get sufficient calcium from:

- Calcium-fortified dairy alternatives, such as soy or nut yogurts and milk.
- Canned fish with soft bones, such as sardines and salmon.
- Dried figs or apricots.
- Green vegetables, such as okra, watercress, spinach, or kale.
- Soy products, such as tofu.
