

Your 16th week

THE BELLY STARTS HERE, ANNOUNCING YOUR PREGNANCY TO THE WORLD.

Some days, you'll take huge pride in your emerging belly; on other days you may sigh for the loss of your figure. Enjoy your changing shape—you'll probably find that your partner loves it, too. For many couples, this can be a time of increased interest in sex. If you have any emotional or physical worries, there'll be an opportunity to discuss them with your doctor. Another prenatal checkup is likely to take place this week.
