

## Your 26th week

YOU'VE REACHED THE THIRD AND FINAL TRIMESTER.

You're in the last lap and, although your belly is probably big, you've still got a lot more expanding to do. Your baby will be moving around quite vigorously and may even respond to loud noises and music. Nerve cells in her brain are beginning to connect and her coordination is improving. Keep your own brain stimulated by going to prenatal classes for fun, company, and information.
