

weak from hypoglycemia—low blood sugar. This is because the baby is constantly drawing glucose from your bloodstream.

Healthy snacking is the key to eating well and comfortably:

- **Keep lots of fresh fruit** in the fridge or fruit bowl and snack on it to get your sugar fix, rather than chocolate.
- **Stock up and nibble** on dried fruits and nuts.
- **Keep hard-boiled eggs in the fridge** as a handy nutritious snack.
- **Buy or make some frozen juice pops** and keep them in the freezer. Some women also find it refreshing to suck on these during labor.
