

Brownie Flash IV

Brownie Flash series

- **What?** Brownie Flash II
- **Who?** Eastman Kodak Co Ltd
- **Where and when?** UK, 1957

In 1898, Kodak founder George Eastman asked his camera designer to design the cheapest camera possible, and the Brownie was created—a camera so simple to use, anyone could operate it. The Brownie range continued with the popular Brownie Flash series in the 1950s, which was even more useful as it allowed the user to attach a flash.

Hasselblad cameras

- **What?** Hasselblad 500 EL
- **Who?** Victor Hasselblad
- **Where and when?** Sweden, 1969

A former trading company, Hasselblad started making cameras during World War II. Their cameras are regarded as being of the highest quality, and they became well known when NASA chose the Hasselblad 500 EL to be the camera used on the legendary Moon landing in 1969.

Digital camera

- **What?** Minolta RD-175
- **Who?** Minolta
- **Where and when?** Japan, 1995

Cameras that do not use film but capture and save photographs electronically first appeared commercially in the mid 1990s. The first properly portable digital camera was probably the Minolta RD-175, released in 1995, followed by the Nikon D1 in 1999.

Action cameras

- **What?** GoPro HERO
- **Who?** Nick Woodman
- **Where and when?** US, 2004

Beloved of adventure-sports enthusiasts, the GoPro range of cameras was dreamed up by a surfer who could not find the right kind of equipment he needed to shoot while riding waves. The original camera, developed in 2001, used 35 mm film, but later models incorporated digital and video technology, as well as special wide lenses.

GoPro HERO 4

Drone photography

- **What?** SOLO Drone
- **Who?** 3D Robotics
- **Where and when?** US, 2015

Originally designed for military use, small drones equipped with GPS navigation and digital cameras have become commonplace, allowing increasing numbers of photographers to capture stunning aerial images.

Polaroids

- **What?** Polaroid SX-70
- **Who?** Edwin Land of the Polaroid Corporation
- **Where and when?** US, 1972

Jennifer Land, after having her photo taken, asked her father, “Why can’t I see them now?” Her father was Edwin Land of the Polaroid company, who went on to invent the first commercial instant camera. The innovation continued with the iconic SX-70, which delivered a print shortly after taking the picture and was popular in the 1970s.
