

No. 643,094.

O. A. HENSEL.

Patented Feb. 6, 1900.

## ROCKING OR OSCILLATING BATH TUB.

(Application filed Jan. 6, 1899.)

{No Model.}

2 Sheets—Sheet 1.

## TIME TO RELAX

In the 19th century, water therapy was a popular treatment for all sorts of ailments and this US patent, registered in 1900 by Otto Hensel, shows his rocking bathtub, which moved up and down to gently splash water against the bather. A curtain from the tub to the bather's neck kept the water from spilling. Today, people may relax in hot tubs, whirlpool baths, and showers with varying jets of water.
