

Platelet

Wall of the
blood vessel

In the mix

Plasma makes up the greatest part of blood, followed by red blood cells and then white blood cells and platelets. A single pinhead-sized drop of blood contains about 2.5 million red blood cells, 3,750 white blood cells, and 160,000 platelets.

Plasma is a straw-colored liquid that makes up **55 percent** of blood

White blood cells and platelets make up **1 percent** of blood

Red blood cells make up the remaining **44 percent** of blood
