

Grenada

The southernmost of the Windward Islands, Grenada made world headlines in 1983 when the US and Caribbean allies mounted an invasion to sever links with Castro's Cuba.

GEOGRAPHY

Volcanic in origin, with densely forested central mountains. Its territory also includes the islands of Carriacou and Petite Martinique.

CLIMATE

Tropical, tempered by trade winds. Hurricanes are a hazard in the July–November wet season.

PEOPLE & SOCIETY

Grenadians are mainly of African origin; their traditions remain strong, especially on Carriacou. Inter-ethnic marriage has reduced tensions between the groups. Extended families, often headed by women, are the norm. Wealth disparities are not marked, but levels of poverty are growing.

INSIGHT: Known as “the spice island of the Caribbean,” it is the world’s second-largest nutmeg producer

THE ECONOMY

Severe damage from Hurricane Ivan in 2004 to crops and 90% of buildings; reconstruction will take years. Nutmeg, cocoa, bananas, and mace. Smuggling is a serious problem.

FACTFILE
