Australasia and Oceania

Nauru was jointly administered by Australia, the UK and New Zealand from 1947 until independence was granted in 1968.

The flag, chosen in a local design competition, was adopted on the day of independence. It depicts Nauru's geographical position, one degree below the Equator. A gold horizontal stripe representing the Equator runs across a blue field for the Pacific Ocean. Nauru itself is symbolized by a white twelve-pointed star. Each

point represents one of the 12 indigenous tribes on the island.

This is also a local design and includes the chemical symbol for phosphorus; phosphates are Nauru's main export. Beneath it are a frigate bird and a sprig of *tomano*.
