

“ HE THAT DOES GOOD FOR GOOD’S SAKE SEEKS NEITHER PARADISE NOR REWARD, BUT HE IS SURE OF BOTH IN THE END. ”

William Penn, English Quaker, establishing Philadelphia, 1682

mid-16th century, had never amounted to much more than statements of priority and Christian preeminence over the region. New Mexico was seen as a land of marginal value as it was **remote and arid**. The Pueblo revolt was provoked partly by drought and by the suffering such natural events inevitably brought in their wake, but more particularly by Spain’s determination to **crush local religious practices**—Pueblo shamen were consistently accused of witchcraft and executed. When the Spanish returned in 1692, they did so in overwhelming numbers.

The **Asante kingdom**, founded in about 1680, was formed from the Akan, who dominated West Africa. The most prominent group of the Akan was the Oyoko. Using diplomacy and warfare, the **Oyoko consolidated the Akan** tribes in the 1670s, uniting them against the threat of the neighboring Denkyira, who they eventually

conquered in 1701 at the Battle of Feyiase (in modern Ghana).

Few projects revealed the determination of Louis XIV’s France to extend itself than the construction of the **Canal du Midi**, a navigable inland waterway that stretched between the Mediterranean Sea and the Atlantic Ocean. Its construction was necessary because it would replace a perilous and indirect sea passage with a simple canal route. The technical problems, no less than the cost, were daunting. The main problem was how to ensure a sufficient supply of water to the highest parts of the canal. It was easily the most complex engineering problem undertaken by any 17th-century European state, calling for labor on a massive scale, and used entirely untried engineering solutions. When **completed in 1681**, the Canal du Midi stretched a distance of 149 miles (240 km).

PUEBLO POTTERY

The Pueblo of southwest North America, so called by the Spanish for their *pueblos*, or villages, were famed for their sophisticated and elaborate pottery. It is characterized by a light background on which are painted stylized animals and repeated abstract patterns in ocher, black, and gray coloring.

Penn in America

This detail from a painting shows English Quaker William Penn’s meeting with American Indians in what is now the state of Delaware.

THE 1682 CORONATION OF

nine-year-old **Peter the Great** (1672–1725) as czar of Russia brought to a close this vast nation’s vague, imperial influence as a semipower on the margins of Europe. Peter’s childhood was scarred by revolt, and it left him determined to punish his internal enemies and reshape **Russia as a western European power**. In a life of compulsive energy, he built a new capital, **St. Petersburg**, and ruthlessly imposed himself on his boyars (nobles). His version of Versailles, recreated on the edge of the Baltic, did not amount to much more than a statement of intent, but by the end of his reign **Russia** was a massive power-in-waiting, **looming over Europe**.

In 1682, nine years after Jolliet and Marquette had ventured down the **Mississippi**, confirming that these territories contained neither easily exploited wealthy natives nor obvious sources of gold, **Robert de La Salle** (1643–87), a veteran of North American exploration, determined to follow the river to its mouth. With his party of 19 American Indians, he reached it on April 9, 1682, and **proclaimed the river and its hinterlands a French possession, Louisiana**, named after the French king. This formed the basis of a French claim to a vast swathe of North America. Yet a

follow-up expedition by sea in 1684 failed to find the river and saw three of its four ships wrecked. La Salle was murdered by the remainder of his party.

In 1682, **William Penn** (1644–1718), an English Quaker and philosopher who had been granted land in North America

belonging to James, Duke of York, founded the settlement that would grow into the city of **Philadelphia, Pennsylvania**. Penn promised religious freedom and material wealth to all those Europeans who settled there.
