

1 Team work

The statues are heavy, so teams of people work together to pull them into place.

2 Eye sockets

The rope is tied around the *moai's* eye sockets. Detailed eyes will be added later.

3 Strong features

The *moai's* head is large in comparison to its body. Its face is carved with strong, stylized features.

4 Body art

Elaborate tattoos and painted patterns decorate the bodies of the islanders.

5 Grass clothing

It's warm on Rapa Nui. The islanders wear grass loincloths to help them stay cool.

6 Ramp

This statue must make its way up a ramp onto the *ahu* (ceremonial platform).
