

7 Construction

Builders finish work on a new tower that will make the Wall easier to defend in future.

8 Cannon

This gun fires cannonballs that are hollow and filled with explosive gun power.

9 Beacon

Warning smoke lets troops further along the Wall know that the Mongols are here.

10 Patrolman

This soldier brings word of an attack on another section of the Wall. The raid is worse than feared!

11 Terrace farms

People at the nearby farm are not scared. They know the Wall will protect them.

12 Brick kilns

Bricks for the new tower are made on site inside kilns where it can get as hot as 1,470°F (800°C).
