

INTERNATIONAL BORDERS

Borders are dividing boundaries between nations. The border between the United States and Mexico is 1,970 miles (3,169 km) long and one of the busiest in the world, with 20 million crossings each year. The U.S. also shares the world's longest border with a single nation, Canada, stretching 5,525 miles (8,891 km).

▼ POLITICAL MAP

This political map shows the borders between countries. By the end of 2012, there were 194 independent, internationally recognized countries in the world.
