

**3** Use a soft paintbrush to apply découpage medium or diluted PVA glue to one side of the block and to the back of a paper square. Make sure both are thoroughly covered so there are no unglued areas.

**4** Position the glued paper on the side of the block and smooth out the paper to remove any air bubbles.

**5** Coat the paper with a layer of glue to seal it, then turn the block and repeat the process until you have covered all but one side.

**6** Leave the block to dry, unpapered side down, on greaseproof paper or baking parchment.
