

- 11** **Fold both long edges** under by 1cm ($\frac{1}{2}$ in) and iron along the folds. Stack the book pages together, all the right way up and with their raw edges all facing the same direction. Place the raw edges inside the folded binding.

- 12** **Wrap the binding** around the raw edges of the pages and pin it in place. Make sure the edges of the pages and the top and bottom edges of the binding align with one another.

- 13** **Using a straight stitch**, sew along the edge of the pinned binding, through all the pages and through both sides of the binding, to hold the book together.
