

Set of baby bibs

You can never have enough baby bibs. This pattern is super-quick so it's easy to make several bibs. Use old or inexpensive towelling as the backing fabric.

The pattern is designed for a six-month-old baby.

YOU WILL NEED ✿ tracing paper ✿ pencil ✿ scissors ✿ 28 x 21.5cm (11 x 8½in) cotton fabric per bib ✿ 28 x 21.5cm (11 x 8½in) towelling fabric per bib ✿ pins ✿ sewing machine ✿ matching thread ✿ iron ✿ needle ✿ approximately 8cm (3in) strip of Velcro®

1 Trace the template on page 239 onto the tracing paper and cut it out to make the pattern piece. Pin the pattern piece to each fabric in turn and cut it out. For each bib, cut one in fabric and one in towelling.

2 Place the fabric and towelling bib right side to right side and pin them together. Leaving a 1cm (½in) seam allowance, stitch all around the edge apart from 7cm (2¾in) at the bottom edge for turning the bib through.
