

F

face recognition area 44, 68
facial expressions **116-117**, 118, 119
 and conversation 128, 129
 reflex and conscious 110
facial recognition 71, 72, 149, 217
facial symmetry 115
factitious disorders **210**
factual beliefs 159
false memory **141**
fasting 170, 171
fat
 in brain 10, 55
 in diet 52, 54
fear 38, 39, 106, **108-109**, 111,
 116, 117
feedback loops 35, **91**
feelings *see* emotions
female brain **58-59**
fetus, sex of 58
fields of vision **69**
fight-or-flight 13, 107, **108**, 109,
 154
filaments 20
fine motor skills 215
flaccid paralysis 203
flashbulb memories 148
Flynn effect 153
fMRI (functional MRI) scans 40, **43**,
 102, 103, 121, 154
focusing 155, **166-167**, 186
food 52, **54-55**, 61, 94, 95, 113,
 216
 eating disorders **214**
 taste 80-81
foramina 16
forebrain 28, **29**, 32
foreign accent syndrome 126
forgetfulness 146, 200, 216
forgetting 49, **144-145**, 188
 amnesia **146-147**
free radicals 55
free will **168**
frequencies 76, **77**
Freud, Sigmund 169
frontal cortex 46, 117, 171, 212
 and emotion 110, 111
 and movement 96, 97, 209
 reward centers 112
 and senses 81, 87
frontal lobe 29, 30, 48, 111, 211
 and attention 100, 164
 and consciousness 163
 and intelligence 150
 and memory 134
 and senses 68, 77
frontotemporal dementia 200
fungal infections 198
fusiform gyrus 217

G

gamma brain waves 42, 151
gamma-aminobutyric acid (GABA)
 24, 25
ganglia 13
ganglion cells 67
garden path statements 128
gastrin 93
gender 148
general anesthesia **90**, 163
general intelligence factor (g) 153
genetics
 and addiction 113, 212
 and brain development/function
 44, 52, **56-57**, **60-61**
 and brain disorders 201, 202, 209,
 211, 212, 216
 and creativity 154
 and intelligence 151
 and learning disabilities/
 difficulties 215
 and memory 148
 and migraines 196
 mutations **57**, 201
 and personality 176
gestures 118, **119**, 129
ghrelin 93, 94
glands 93
glia 10, **21**, 28
globus pallidus 32, 33, 97
glucagon 93
glucose 18, 19, 91, 93, 94
glutamate 24, 25, 26, 27, 211
glymphatic system 173
golgi tendon organs 85
Google effect 145
grand mal 197
graphene 183
gravity 84
gray matter 10, **20**, 28, 32, 51, 60,
 99, 211, 212
growth 35
 spurts 85
guanine 56
Guillain-Barré syndrome 203
gyri 30, 118, 127

H

habituation 134
hallucinations 171, 200, 211
happiness 39, 106, 107, 116, 117
 and aging 50
 and ideal self 179
head injuries **197**, 198, 206
headaches **196**
health
 anxiety about 210
 brain 52
hearing 36, 64, **74-77**, 182

heart 18, 95, 198
heart defects 215
heart disease 205
heart rate 13, 24, 36, 90, 92, 107,
 108, 109, 110
hemiplegia 203
hemispheres **10**, **29**, 58, 59, 125
hemorrhages 41, 197, **199**, 206
high-functioning ASD 217
hindbrain **28**, 37
hippocampal fold 31
hippocampus 38, 39, 48, 49, 58, 60,
 61, 102
 and brain disorders 200, 203, 211,
 212, 213
 and emotions 107
 and memory 32, 134, 135, 136,
 137, 138, 139, 146, 147, 148,
 149, 191
histamine 24
histone modification 61
homeostasis 34, 82, **90-91**, 92
homosexuality 59
hormones 19, 34, 35, 187, 196
 and emotions 106, 107
 fear and anger 108, 109
 hunger and thirst 94
 motherhood 49
 neuroendocrine system **92-93**
 sex and love 114-115
 see also endocrine system
hunger **94**, 95, 112
Huntington's disease **57**, **201**
hydration **54**
hydrocephalus 16, **205**
hyperactivity 164, 190, 216
hyperorality 39
hypersexuality 39
hypnagogic state 170
hypnosis 170
hypocretin 205
hypomania 207
hypothalamus 32, **34-35**, 38, 39, 59,
 187
 and brain disorders 196, 205, 207
 and emotions 107
 hunger and thirst 94, 95
 neuroendocrine system **92-93**
 regulatory system 90, 91
 sex and love 114, 115
hypothesis testing, and intelligence
 150

I

ideal self 179
ideas, flow of 154-155, 156
identical twins 61, 176
identity, self and 179
ideological beliefs 159
illness anxiety disorder 210

illusions **73**, 153, **174**
imagination 10
imaging technology 40-41
immune system 109, 202
implants
 brain/Cloud interfaces 193
 nano neurobots 190
 neurograins 191
 and senses 182
improvisation, in music 155
impulses 39, 46, 48, 184, 190, 191
impulsiveness 213, 216
inattentiveness 216
infantile amnesia 146
infections 17, 18, 198, 206
inferior frontal gyrus 103
inferior temporal gyrus 30
inflammation 198
information processing 215
inherited diseases 57, 60, 201
inhibition 48
inhibitory neurotransmitters 24
injuries, and pain signals 86
innate responses 110
inner ear 75, 84
insula 81, 158
insulin 93, 94
intelligence **150-151**
 artificial intelligence **188-189**
 ASD 217
 measuring **152-153**
 types of 150-151
intensity, sound 76
intention **103**
interfering memories **145**
interior cortex 69
internal clocks 174-175
internet 145, 192
intracerebral hemorrhage 199
introspection 169
intrusive thoughts 209
invertebrates 14
involuntary functions 12, 13
ion balances 90
IQ (intelligence quotient) 61,
 152-153, 215
irises 66
ironic process theory **169**

J

joint receptors 84, 85
judgment 48
jugular veins 18
junk food 113

K

Kennedy disease 202
kidneys 93, 95
Klüver, Heinrich 39
